Commissioner of Patents and Trademarks

Allowable claims 73-96 and 98 of this application have been copied from U.S. Patent No. 6,014,488 for the purpose of an interference.

Applicant has failed to specifically apply each limitation or element of each of the copied claim(s) to the disclosure of the application. Since there are at least four (4) applications in the chain of continuity for the present application, and since there must be support for each limitation or element of each of the copied claims in the earliest filed of these applications in order to antedate the filing date of the U.S. Patent from which they were copied, and further since there must be such support in each of the applications, applicant is required to specifically identify the portions of each application in the chain of continuity which provide support for each limitation or element of each of the copied claims.

Applicant is given ONE MONTH or THIRTY DAYS, whichever is longer, from the mailing date of this communication to specifically apply each limitation or element of each of the copied claim(s) to the disclosure of the application. See 37 CFR 1.607(a)(5). THE PROVISIONS OF 37 CFR 1.136 DO NOT APPLY TO THE TIME SPECIFIED IN THIS ACTION.
